The Ting Project - Thing sites International Networking Group (THING) Accept the offer of grant

We are thankful to the Programme Monitoring Committee / Managing Authority of the Northern Periphery Programme 2007 – 2013, for approving our Main project.

We hereby send the document *Conditions for Northern Periphery Programme funding*, signed in return.

The start of the project has been some month delayed caused by the need to go out for a official competition to select a secretary for the project. The process has presently been fulfilled and contract has been signed with Haugland International FoU Centre. Even if the project start has been delayed, we are now in good move and the activity and the goal for the project will be fulfilled in connections with the conditions.

We therefore apologise that the signed papers are send to you some days later than asked for. We look foreword to have a good relations trough the project.

Yours sincerely

Svein Arne Skuggen Hoff
Deputy director for culture
Sogn and Fjordane County
